

What do you see?

A burglar sees an opportunity

Hertfordshire is a safe county with low rates of burglary, but if your house has no lights on when it gets dark in the afternoon, this tells a burglar that no one is home.

Burglars love empty houses.

If you are going to be out during the day give your home a lived-in look by using a timer switch on lights to make sure a burglar thinks that someone is in.

If you see suspicious behaviour in your neighbourhood:

-  Call the non-emergency number **101** with your information.
-  In an emergency call **999**.
-  If you know someone who you think may be involved in committing crime, please contact **101** or call Crimestoppers anonymously on **0800 555 111**.
